We would again call the attention of our citizens to the provisions of Chapter 8 of the Public Statutes of New Hampshire, and Chapter 111 of the Laws of 1895, in relation to the establishment and maintenance of free public libraries.

We gratefully acknowledge the receipt of various reports and public documents from the state, and general government, and from our senators and representatives in Congress during the past year, and also from Augustus P. Chamberlain, Esq., of Concord, Mass., for the gift of 24 volumes of the Encyclopaedia Britannica in beautiful binding in one-half Morocco, which is a valuable acquisition to our library.

Magazines from Mrs. D. H. Reed, Mrs. Dean, Mrs. I. F. Paul, Mrs. E. C. Lawrence, Mrs. J. S. Blair, Miss Charlotte Bigelow, Mrs. Mills, Mrs. R. Matthews, and Magazine Club.

We feel that it is our duty to repeat the suggestion made in our annual report for 1906.

That our town is in great need of a suitable and commodious new building in which to store its valuable library, and in which there should be a large hall, in which to display its collection of pictures, maps, engravings, works of art, and curios, now on hand, and which are rapidly increasing from year to year.

Our library now ranks among the largest and best in the county of Cheshire, and we should have as nearly a fire-proof building as possible for its protection.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Fitzwilliam:

I submit herewith my report as superintendent of schools.

The parents of Fitzwilliam are not in close touch with the work of the schoolroom. As a means of keeping the parents informed in regard to the work of their children, I recommend that report cards be introduced into all the schools and that teachers be required to make monthly reports to the parents. These reports should state the standing of the pupil in the different subjects he is studying; also, his record in attendance, conduct and application.

I also recommend that the town be asked to make an appropriation for necessary repairs and alterations in the schoolhouse of district No. 10.

An attempt has been made to keep the cold out of this building by banking, but this effort has not been successful. The school room needs a new floor and additional sheathing.

Futhermore, the school room is too small. Accordingly, I recommend that the room be enlarged so as to include the present shed and that a new shed be built. This seems to be the most economical way to get more space.

I have found most of the schools in Fitzwilliam to be in good condition. A majority of the teachers have been doing excellent work. Unfortunately, these remarks do not apply to the village grammar school. I pledge myself to work especially for this school, and I ask the support of the community in my efforts to bring about its betterment.

Respectfully submitted,

AUSTIN H. FITTZ.

Fitzwilliam, Feb. 20, 1907.

REPORT OF SUPERVISOR OF MUSIC.

Mr. Austin H. Fittz, Superintendent of Schools:

Dear Sir:—I have honor to submit the following report for the fall term of 1906.

I visited the schools of Fitzwilliam once each week during the term. An outline of work to be done during the winter term was furnished each teacher.

To the pupils as well as to some of the teachers the systematic teaching of music was entirely new. The conditions existing in the schools were especially favorable for the introduction of music. The teachers as a whole were musical, and in every instance have shown an active and an intelligent interest in the work. The pupils, with few exceptions, have shown a willingness to work and an enthusiasm which has been very encouraging. Right here, let me thank both teachers and scholars for their hearty cooperation in the work.

With the day teacher rests very largely the success of a school in vocal music. Special attention has been given to the work in the primary grades. The work of the first three years in school is more important than that of any of the succeeding years. If the work of these years has been well done a firm foundation for the future has been laid. In order to eliminate monotones individual work when needed has been carried on with success.

Two things are absolutely necessary:—

(1) That the teacher shall have control of her room in point of discipline.

(2) That the teacher shall be as faithful in the daily drill in music as in the direction of other studies.

In the first two grades, tune, notation and time have been taught. Rote songs have been given. Songs have been put upon the board in order that the children may become familiar with musical characters even before they are able to name them. In the upper grades musical signs and technicalities have been taught. The two-part music which the pupils of the latter grades have been able to take up has been very interesting and enjoyable to them.

The old books (Ripley and Tapper) which were in some of the schools are still being used. Where new books were necessary the Normal Music Readers have been purchased.

The idea that the time given to music in the schools is wasted is fast becoming obsolete. Music should be made a useful study as well as an enjoyable one. It can be made to correlate with reading, language and nature study. Music properly taught is being recognized as a real factor in the development of the child, physically, mentally and spiritually.

In our large cities and in many of our towns vocal music has its place in all grades. Pupils are being sent from your town to high schools of the cities where music has reached the point of glee clubs and choral classes. Are they to go unprepared to take up this study with the other members of the class which they enter?

Let us hope that the next year will bring such a hearty support from the town that Fitzwilliam will stand beside other towns of its size in this matter of music in the public schools.

Yours respectfully,

EDITH M. GRIFFIN,

Supervisor of Music.
